

The University of Northern British Columbia
Department of Mathematics and Statistics
Mathematics 152 – Calculus for Non-Majors
September 2024

Instructor: Edward Dobrowolski
Office: T&L 10-2096
Office hours: TBA
Phone: ext. 5549
Email: edward.dobrowolski@unbc.ca

Lectures: MWF 12:30 pm – 1:20 pm in 7-212, from September 4 to December 3, 2024.

Office Hours: TBA after the first day of classes

Textbook 1: A.J. Allen and P.J. Orchard, *Calculus for Business and Social Sciences*, Texas A&M University 2021. Free download at <https://oaktrust.library.tamu.edu/handle/1969.1/194503>

Textbook 2: Lial, Greenwell, Ritchey, *Calculus with Applications (Brief Version Electronic)*, 11th Edition, Pearson. We will only use 10% of this book at the end of the course
No need to buy it.

Prerequisites:

MATH 115 Minimum Grade of C- or PreCalculus 12 (60%) or Principles of Math 12 (60%).

Course Description: Limits, the derivative, techniques of differentiation, exponential functions and exponential growth, maxima and minima, curve sketching, introduction to differential equations, definite and indefinite integrals, partial derivatives, and optimization of functions of several variables.

Grading Scheme

Assignments	30%
Midterm I	20%
Midterm II	20%
Final Exam	30%

Midterm Dates: Friday October 18, Monday November 18

Electronic Devices: Electronic devices such as calculators, smart watches, phones, etc., are not permitted in exams.

Material covered: Most material from Chapters I – IX, excluding 1.3, 3.5, 6.3. The amount covered from Chapter IX will be determined as course progresses.

The assigned problems will be posted on Moodle.

The information of the required format of the assignments will also appear on Moodle.

Lectures: The lectures will be recorded. However, I invite you to attend live lectures, this will be beneficial for you.

Assignments and Practice Problems: There will be approximately 10 assignments to be handed in for marking.

The assignments problems and practice problems (not to hand in) will be posted on the Moodle website.

In order to help our markers please write assignments in the following format:

- ^ On the top of first page write Assignment Number, Course name (Math 100), and Date.
- ^ Use only one side of each page.
- ^ At the end of solution of the problem clearly indicate the final answer.
- ^ Use horizontal lines or spaces between solutions.
- ^ Write solutions in the assigned order.
- ^ If a problem is missed, indicate it by writing its number, and leave some blank space.
- ^ Staple.
- ^ Try to make nice appearance of your work.

Learning Resources:

- ^ We will have a Teaching Assistant.
- ^ MACE (The Mathematical Academic Centre for Excellence) It is located in T&L Building room 10-2088. You can get help there from a designated student, your colleague, or myself. Great place to do your assignments.
- ^ ASC (Academic Success Centre). It is located at the ground floor in the Library. You can get there free private tutoring, advice, and much more.

The Access Resource Centre (ARC) provides assistance for students with disabilities.

En cha hun'a

I respectfully acknowledge I live and work on the unceded traditional territory of the Lheidli T'enneh
