

Introductory Labour Economics – Group Activity Worksheet

“Why Do People Earn Different Wages?”

1. What factors do you think determine how much someone earns?

List three to five factors you believe affect wages.

2. What labour market problems do people often talk about?

(Examples: low wages, unemployment, job insecurity, inequality.)

3. Choose ONE problem and discuss who should address it and how.

Include one drawback or trade-off.

Problem: _____

Solution: _____

Trade-off: _____

4. Your group will share one item with the class.

Circle one: Wage factor / Labour problem / Solution + trade-off
