

Introductory Labour Economics – Canada-Specific Worksheet

"How Is the Canadian Labour Market Working?"

1. What factors affect wages and jobs in Canada today?

(Examples: education, experience, immigration, unions, minimum wage.)

2. What labour market issues does Canada face today?

(Examples: youth unemployment, gig work, labour shortages, wage inequality.)

3. Choose ONE issue and discuss a possible policy response.

(Examples: minimum wage, training programs, immigration, unions.)

Problem: _____

Policy response: _____

Trade-off or unintended effect:

4. Your group will share one item with the class.

Circle one: Wage factor / Canadian labour issue / Policy + trade-off
