

FACULTY OF BUSINESS AND ECONOMICS
School of Economics

MEMORANDUM

TO: Dr. Muhebullah Karimzada, Assistant Professor

FROM: Dr. Karima Fredj, Chair of School of Economics

DATE: April 1, 2026

RE: 2026 Professional Activity Report – January 1, 2025 to December 31, 2025

This formative feedback memo is in accordance with the Collective Agreement between the UNBC Board of Governors and the UNBC Faculty Association. The purpose of this review is to provide the following as per Article 21A.11.1: (a) a review of performance that allows recognition of a Member's achievements and identifies areas for development in the Member's Professional, Teaching, Research, and/or Service activities, as appropriate to the Member's Academic Responsibilities and Workload; (b) formative support and mentoring (as outlined in Article 72.3.1 (a)); and (c) a basis for the Dean's or Associate Vice President Division of Medical Sciences deciding under 21C.1 to recommend a grid step for satisfactory performance or to initiate a performance evaluation of a member; and (d) evidence for promotion and tenure/continuance deliberations as per Article 22.6.3.1.

Article 21B.1 Teaching Evaluations

During the reporting period, Dr. Karimzada taught six undergraduate courses: Principles of Macroeconomics (ECON 101, two sections), Contemporary Economic Issues (ECON 204), Global Economic Shifts (ECON 220), International Economic Relations (ECON 308), and Introduction to Mathematical Economics (ECON 320).

Dr. Karimzada worked on several new course preparations during the reported year. He developed online course materials for ECON 101, ECON 204, and ECON 220, including lecture notes, presentation slides, practice problem sets, tutorials, and assessments. In September 2025, he also prepared ECON 308 and ECON 320 and redesigned ECON 101 for in-person delivery.

Article 21B.2 Evaluation of Scholarly Activity and Productivity

During the reporting period, Dr. Karimzada has been working on two research projects related to housing markets. One project examines labour market dynamics among construction workers over the housing cycle using Statistics Canada microdata accessed through the Research Data Centre. A second project compares Canadian and U.S. mortgage structures and examines their

implications for household financial stability and macroeconomic dynamics using aggregate data from Canada and the United States.

Dr. Karimzada also participated in several scholarly events, including the Canadian Economic Association Conference, as well as seminars and workshops related to research and academic development.

Article 21B.3 Evaluation of Service

During the reporting period,

Dr. Karimzada contributed to service at the School and University levels.

At the School level, he served as a member of the Curriculum Committee and actively contributed the program development. He also served as School of Economics Recruitment and Outreach Coordinator, a role within which he worked closely with the Chair and the University's recruitment office to coordinate outreach activities and engagement with prospective high school students.

Dr. Karimzada regularly attended monthly FBE Council meetings and Economics Program meetings during the reporting period.

Summary and Objectives

Overall, Dr. Karimzada's activities during the reporting period reflect engagement in teaching, research, and service. During the year, he taught six undergraduate courses including several new course preparations and revisions associated with both online and in-person delivery.

His scholarly activities included the development of two research projects related to housing markets, including a project using Statistics Canada microdata accessed through the Research Data Centre and a comparative study of Canadian and U.S. mortgage structures. Presentation at the Canadian Economic Association Conference and participation in research and academic seminars.

In the area of service, Dr. Karimzada contributed through roles within the School, including contribution within the Curriculum Committee and service as School of Economics Recruitment and Outreach Coordinator.

For the coming year, Dr. Karimzada plans to continue improving course materials and incorporating additional applied examples and active learning approaches. His research objectives include advancing the housing market research projects currently underway and presenting preliminary findings at conferences and seminars. In the area of service, he indicates that he plans to continue contributing to curriculum discussions and recruitment initiatives aimed at promoting the Economics program.

Comments on Progression to Tenure/Continuing and/or Promotion (not applicable to tenured Full Professors, Continuing SI IV, Continuing SLI IV):

Dr. Karimzada is in the first year of his three-year term instructor appointment. His activities during the reporting period reflect a very strong engagement in teaching, scholarly activity, and service. His stated objectives for the coming year are appropriate and feasible. Dr. Karimzada is a valuable addition to the School of Economics across teaching, scholarly activity, and service.

His stated objectives for the coming year are appropriate and feasible.

Faculty Member comments (if any):

First and Last, Program Chair

Date

As per Article 21A.12.4, The signature of the Member is required and indicates that the Member has read the supervisor's formative feedback. The Member may submit a rebuttal memorandum to their supervisor if the Member disagrees with the formative feedback provided by the immediate supervisor. The rebuttal memorandum will be placed in the Member's OPF.
